

# AUTO Technology

125+ years of materials science

75 years of corrosion chamber manufacturing

The world's largest accredited contract  
corrosion test laboratory

**Full-service corrosion system engineering**

The Harshaw Chemical Company  
MANUFACTURERS—IMPORTERS—MERCHANTS  
General Offices and Laboratories  
CLEVELAND, OHIO  
"Quality Products Since 1892"

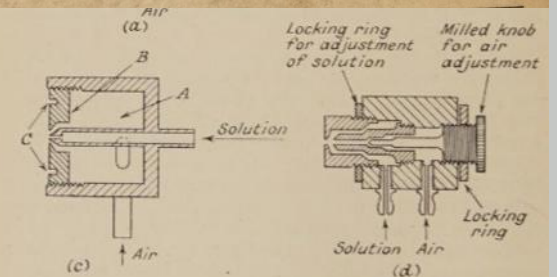

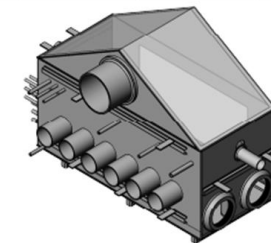

FIG. 19.—Atomizers for spray tests.

AUTO  
Technology

# ***WE ARE THE CORROSION SPECIALISTS***

We design, supply, and service corrosion chambers for leading materials laboratories across OEMs, suppliers, and government programs.

# ATC PARTNERS

Global OEMs and Tier-1 suppliers

Aerospace, electronics, coatings, energy,  
and industrial manufacturers

and many more.

Accelerated Exposure

# 125+ YEARS OF MATERIALS SCIENCE

**1890s** The Harshaw Legacy: Born at the forefront of modern coatings.

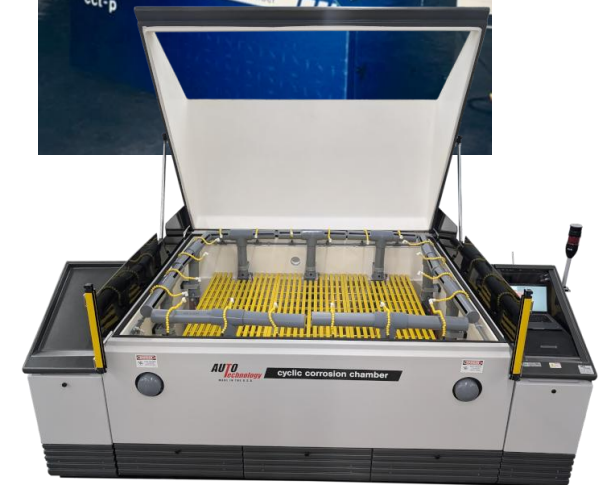

**1950s** Pioneering Automation: The first commercialized corrosion chambers.

**1990s** Driving Evolution: The first automated cyclic chambers.

**2000s** Testing Intent: Opened the ATC Corrosion Test Lab.

**Today**

# ***ATC CHAMBERS COST MORE***

*and that's by design*

Built to spec — no shortcuts

U.S.-designed, engineered, and built by and for people who run the tests

We service competitor chambers — we see how they fail and design ours not to

Customizable and serviceable design

U.S.-stocked parts, including legacy chambers

Decades of service with residual value

***Not built for everyone — built for labs that depend on results***
